

DD-XPAND

PRODUCT NAME

DD-XPAND

RECOMMENDED USE

Environmentally safe loss circulation and plug material.

PRODUCT DESCRIPTION

DD-XPAND can be used in the oil and gas diamond, rotary, and seismic drilling industries.

DD-XPAND allows drilling through highly fissured and fractured formations and can effectively shut off water flows and open voids.

SUGGESTED DOSAGE

2 - 4 pounds of DD-XPAND per 100 Gallons (2.5 - 5.0 kg / 1000 litres) of water. Oil and gas dosages and procedures will vary. Please contact Techline Services for a proper mix system for your application.
