

ES THREAD COMPOUND

PRODUCT NAME

ES THREAD COMPOUND

RECOMMENDED USE

Environmentally safe joint compound.

PRODUCT DESCRIPTION

ES THREAD COMPOUND is designed for tool joints, drill collars and rotary shouldered connections.

ES THREAD COMPOUND is free of both a petroleum oil carrier and all heavy metals, such as, lead, zinc, copper, aluminum, etc.

ES THREAD COMPOUND is ideal for mineral exploration drilling projects where samples uncontaminated by heavy metals are required, and groundwater contamination is of concern to the mining company.

ES THREAD COMPOUND is the next generation of pipe dope for the drilling of uncontaminated water wells.

ES THREAD COMPOUND's unique formulation provides excellent protection against thread wear, galling and seizing.

ES THREAD COMPOUND is highly resistant to water wash off.

ES THREAD COMPOUND protects inner and outer connections on revers circulation drill pipe (inner o-ring thread connections).
